

INNOVATING FOR IMPACT

Amanda Wilson
Director General
Office of Energy Research and Development
Natural Resources Canada

Office of Energy Research and Development (OERD)

- 40+ years of program design and delivery experience
- History of incremental improvements in the way we do business
- Budget 2017 provided the framework to re-double efforts, and we've built on our experience to maximize impact

Integration and Coordination

Trusted Partnerships

Main Messages

- Making things work better can be harder, but is almost always worth it
- We often misperceive risk :
 - New \neq riskier
 - Risk associated with not acting
- Enabling environment is key – engage finance, legal, and others to help
